ARCADIA; WHO ARE WE?

A specialist Nigerian company focused on Civil works, Trade, Supplies and General Contracting, servicing FMCGs and Oil & Gas sectors.

The Company was borne out of a deep desire to show excellence and Raise the Standard of execution.

Arcadia has grown into a reputable player, gaining the trust of companies (clients and partners), for and with whom we have successfully, acquired and executed sensitive projects on time and always within budget.

Managed by its 2 Directors and a seasoned field team; experts in the field of Trade, Procurement and Supply for over 33years.

Vision

“To build a legacy of excellence in execution by raising the standards of what is achievable”.

Mission Statement

“To change the perception of trade and supply, by delivering world class services to our customer effectively and with efficiency, every time, while growing the company to represent best in class standards in execution”.

ARCADIA CORE VALUES

Customers centric:

We delight in being known as problem solvers. We exist to assist our clients sell more. Our team constantly searches for better ways to overcome obstacles and deliver excellence every time.

Agility

We constantly strive to move the times knowing full well that we must constantly change and evolve else we limit our growth

Transparency

By communicating with our internal and external customers effectively, we develop openness and honesty in our dealings

Ownership

We don't pass the buck, we take responsibility for all our successes and lapses

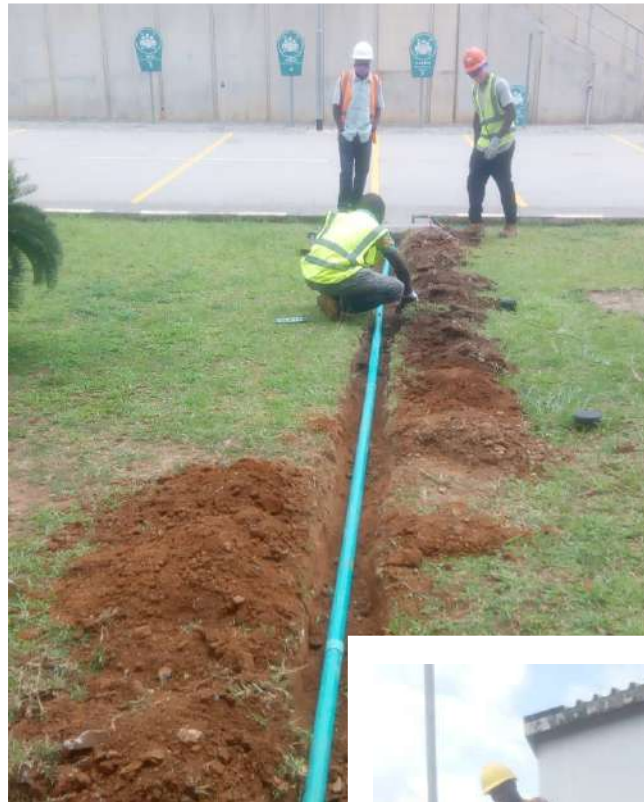

Accountability

We rate ourselves against the highest levels of moral and fiscal responsibility

Civil works

We carry out plumbing, electrical and construction works for our clients in a safe efficient & cost effective manner applying industry best practices in all our operations

Waste Management

As part of our **Green Global Initiative**, we provide environmental services in the aspect of waste management. From inception to final disposal, our company strives to include our clients in the process of managing waste safely and effectively, to avoid any fall out- biological, chemical or physical.

To this end, we provide and install specialized waste collection units, at our client offices, to systematically collect waste, in the form of paper, plastic and glass.

Our approach is a methodological collection, transportation and final disposal of the waste in an environmentally friendly manner mostly by recycling and subjecting all biodegradable waste to bacterial treatment which safely degrades the waste without any residual toxic fallout.

Logistics Competencies

Event Services

Branding,

Events

&

Advertising

We offer the total package in business branding. We have gained a tremendous amount of experience over the years in design branding for both businesses and products.

We also specialize in events by studying the market and closely listening to our client's brief which in turn creates a harmony of ideas, resulting in unforgettable memories.

Advertising is the next step for us after branding. We create the brands and then proceed to gain a market presence for clients that gets the ideas and messages out to the customers where it is needed the most.

GENERAL CONTRACTING AREAS

Our Promise

In the course of executing our business contracts, we have partnered with a number of distinguished professionals in various fields, to establish lasting, mutually beneficial and productive relationships.

These relationships are increased our effectiveness and improved our efficiency levels on every job.

We are proud of our clients and partners and look forward to continuous successes together, as we always strive to deliver quality and trustworthy services that keep our clients happy and satisfied.

Management Team

Chike Ezeilo- Managing Director

- Chike has academic background in analytics, a seasoned Supply Chain professional with a passion for Sales. This propelled him to study International Trade from The Robert Gordon University Aberdeen, United Kingdom. With previous experience as the Managing Director for a large shipping company, he has harnessed this skills in the Oil and Gas logistics industry. He co—founded Arcadia Trading & Supply Limited and is the Managing Director, overseeing the day to day running of the company and is responsible for its growth. He is a Chartered Member of the Institute of Logistics & Transport (CMILT) and has attended various training courses including ‘Oil Market Fundamentals’ in Nairobi, Kenya conducted by CITAC Africa LLP.

Fejiro Akpovi- Director

- Fejiro is an accountant and has practiced in a few audit firms in Nigeria. He is a seasoned entrepreneur with a strength in execution and developing strategic relationships necessary for stellar project delivery. His passion for seamless execution saw his take a masters in Risk Management from the University of Portsmouth, United Kingdom. He co-founded Arcadia Trading driven by his passion to raise the bar on project executions while adopting high standards of performance delivery, thus exceeding expectations on client needs. He currently serves as a Director with Arcadia and in charge of client accounts and oversees the company’s finances.

Alozie Herbert- Operations/ HSE Manager

- Mr. Herbert brings with him a wealth of experience in the areas of Health, Safety & operational excellence. He is a graduate of Marketing and has more than 10years experience in managing projects. His keen sense of problem solving has seen him deliver projects diligently and with brilliance. He has attended several training courses in Project management, Occupational Safety & Health Administration, First Aid & CPR and Fire Fighting.
